Assignment Hub

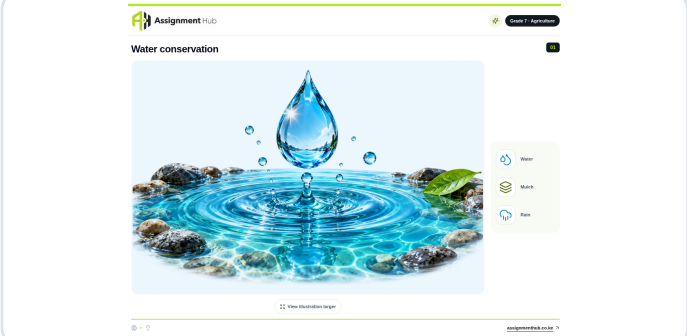

LIVE PRODUCT / KENYA

Learning that goes beyond the page.

Assignments, revision and interactive practical exploration.
One online workspace for Kenyan learners in Grades 6–12.

01 Subject and topic-based assignments

02 Illustrated recall cards

THE PROBLEM

Access to practical equipment, revision materials and individual feedback is uneven. Learners need more opportunities to practise and understand their mistakes.

THE SOLUTION

A live browser-based platform connecting assignments, mock assessments, illustrated recall cards, 3D practical activities and guided skills lessons.

HOW IT WORKS

A shared question bank stores content for review and publication to independent learners and schools. AI assists curriculum-guided content creation; reviewed content is saved and reused to manage costs.

SCHOOLS

KSh 150

per learner / year

INDIVIDUAL LEARNERS

KSh 200

per month
