Practice. Discovery. One learning workspace.

Assignment Hub connects assignments, revision and practical exploration for Kenyan learners in Grades 6–12.

THE NEED

Access to practical equipment, revision materials and individual feedback is uneven. Learners need opportunities to practise and understand their mistakes.

THE LIVE SOLUTION

A browser-based platform with assignments, mock assessments, illustrated recall cards, interactive 3D practicals and guided skills lessons.

REVIEW ONCE. STORE. REUSE.

A central question bank supports reviewed content publication to schools and independent learners. AI assists curriculum-guided creation; saving and reusing content helps control operating costs.

SCHOOLS

KSh 150 per learner / year

INDIVIDUALS

KSh 200 per month
